

China 2026

PROJECT LIGHTNING TALK:

Atlantis:

Terraform Pull Request Automation for Cloud Native Teams

Rui Chen · Atlantis Maintainer

Shanghai, China · September 8, 2026

The pull request becomes the workflow.

Pull request

Code + plan review

Webhook · apply request

Plan + apply results

Atlantis

PR orchestration

Configured requirements

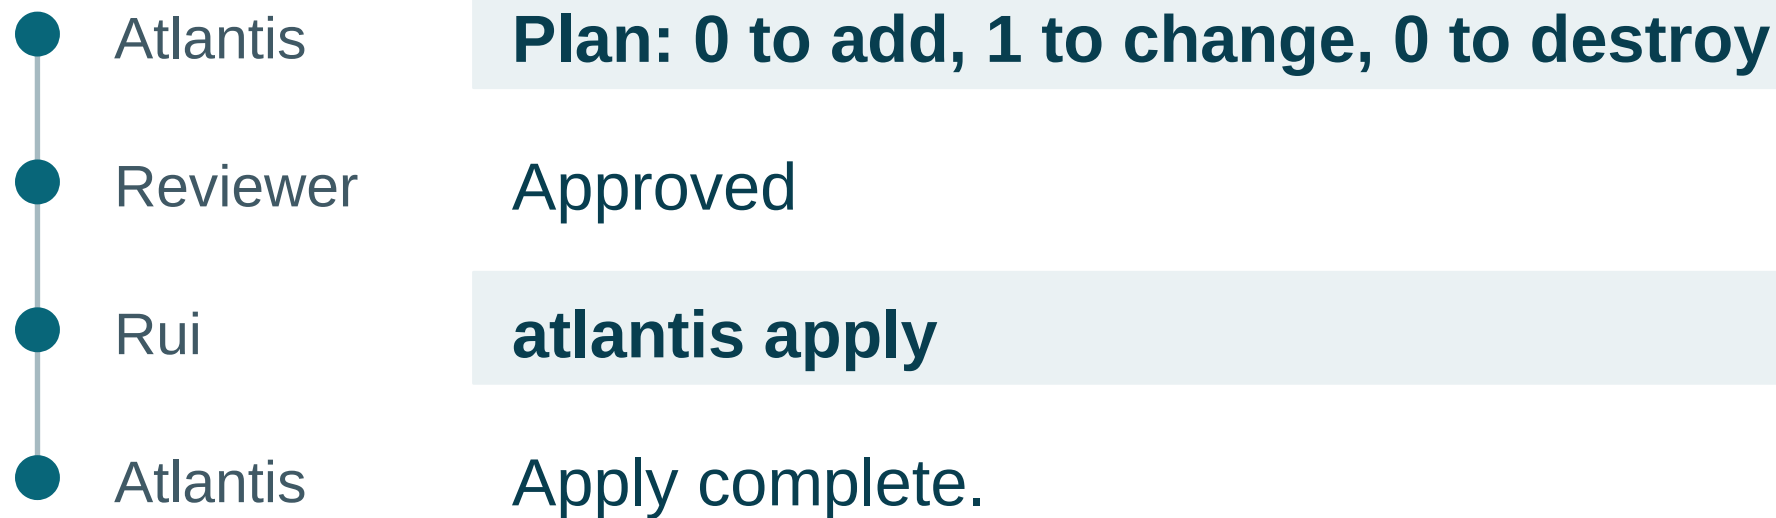

Terraform / OpenTofu

Providers · state · infrastructure

Results stay with
the pull request.

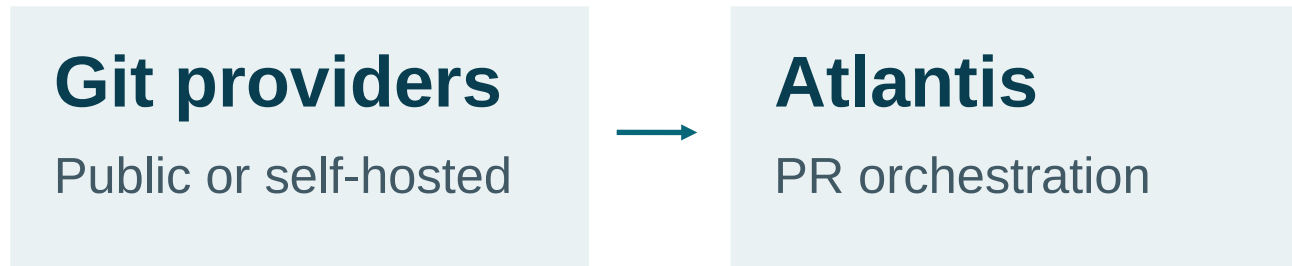

One change. One PR conversation.

infra: resize production database

Illustrative PR · approval requirement configured · apply before merge

Atlantis in the IaC ecosystem

354

survey responses · 2024

GitHub leads
GitLab sizeable

About half also
use Terragrunt

Terraform / OpenTofu

Cloud providers

e.g. Alibaba Cloud · Tencent Cloud

Atlantis User Survey · 2024 · n=354

Infrastructure is code.

Plan it.

Review it.

Apply it.

From the pull request.
